This section is *optional* and can be used to provide a summary of recommendations to the IT manager regarding which controls and/or compliance best practices Botium Toys needs to implement, based on the risk posed if not implemented in a timely manner.

Recommendations (optional): In this section, provide recommendations, related to controls and/or compliance needs, that your IT manager could communicate to stakeholders to reduce risks to assets and improve Botium Toys' security posture.

- Implementation of stricter access controls pertaining to least privilege and separation of duties is necessary.
- Ensure that only authorized users have access to sensitive data such as customers' credit card information and PII or SPII, keeping the idea of need-to-know basis in mind.
- Encryption of customers' credit card information is necessary to ensure the confidentiality of customers' sensitive information.

- Installation of an Intrusion Detection System to detect and prevent traffic that matches a signature that pertains to threats.
- Creation of disaster recovery plans and backing up critical data is essential to ensure business continuity in case of unfortunate incidents.
- Employ stronger password complexity requirements for the password policy and implement a centralized password management system.
- Consider upgrading from existing legacy systems to up-to-date systems if possible. On the occasion that this is difficult, implement a strict schedule to regularly monitor and maintain these systems.
